MEET Gus

Gus is a male Pit mix. This handsome fella has a **heart full of love** and he is ready to find a family of his own.

This handsome boy was found in Morrisville, likely a dumped Trenton dog as several are found near the river every few months. I found him back in April – scared, malnourished, and intact – and no one ever came forward for him. Since then, he's become a playful, affectionate dog with great energy, now neutered, fully vaccinated, and about 3–4 years old. Gus would do best in a calm home with adults or older kids, as he can be unsure with sudden movements and needs continued structure and training. He takes Apoquel for mild seasonal allergies. We're hoping to find Gus a loving, experienced home soon – he truly has so much love to give.

Please **call/text Giuliana at 215-805-4236** to meet Gus!
