

# Senior Alert!

Winston is currently in a temporary foster home after finding himself on the euthanasia at the Trenton Animal Shelter **due ONLY to lack of space.**

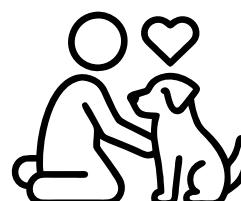

## MEET WINSTON

Winston is a senior male Pitt bull mix with a heart of gold. This sweet fella is sure to steal your heart with his winning smile and adorable personality!

Winston struggled in the shelter due to his health issues (he has weak hind legs and untreated skin allergies). He was weary of staff and appeared fearful of being hurt but after just 24 hours in his foster home, Winston blossomed into an affectionate, happy, tail wagging boy. He went from being shut down and cautious to asking for scratches and even rolling over to ask for belly rubs! This affectionate old man is ready to find his furever family where he can live the rest of his life being showered with the love he so deserves! Winston is a strong boy and between that and his difficulty with his back legs he would do best in an adult only home.

Are you the family Winston has been waiting for?!

Please [call/text Giuliana at 215-805-4236](#)  
to meet Winston and save his life!
